William Greenberg Desserts at Hudson Yards designed by Landow and Landow Architects

William Greenberg Desserts, New York City's iconic bakery founded in 1946, has opened its newest location at Hudson Yards.

Landow and Landow Architects' project team, led by partner Marc J. Landow AIA NCARB, designed the newest location to reflect a modern interpretation of the brand's Madison Avenue location, also designed by Landow and Landow. The shop includes custom quartz cabinetry, a movable glass wall system constructed by Panda Windows and Doors, Trend Q synthetic terrazzo floor slabs and counter tops, and Oscartek refrigerated cases.

Information about William Greenberg Desserts can be found at: wmgreenbergdesserts.com

About Landow and Landow Architects AIA

Landow and Landow Architects is an award winning architectural, interior design and planning firm. Founded in 1922 by Abraham Landow, who was joined in 1960 by his son Lloyd J. Landow, the firm is now led by its third-generation principals Robin Landow Levitt, Marc J. Landow, and Glen J. Landow. With an extensive roster of successful projects and a team of experienced and creative design professionals, Landow and Landow continues to build on its strong reputation for highly personalized service, creativity, and design innovation. The firm's experience includes corporate, healthcare, education, retail, commercial, institutional, and residential projects.
